[37 FR 3278, Feb. 12, 1972, as amended at 45 FR 52154, Aug. 6, 1980]

§76.14 Who may sign registration statements.

(a) Registration statements shall be personally signed by the operator; by one of the partners, if the operator is a partnerships; by an officer, if the operator is a corporation; by a member who is an officer, if the operator is an unincorporated association; or by any duly authorized employee of the operator.

(b) Registration statements may be signed by the operator's attorney in case of the operator's physical disability or of his absence from the United States. The attorney shall in that event separately set forth the reasons why the registration statement was not signed by the operator. In addition, if any matter is stated on the basis of the attorney's belief only (rather than his knowledge), he shall separately set forth his reasons for believing that such statements are true.

§76.17 Public Notice.

The Commission will give public notice of the filing of registration statements.

§76.29 Special temporary authority.

(a) In circumstances requiring the temporary use of community units for operators not authorized by the Commission's rules, a cable television system may request special temporary authority to operate. The Commission may grant special temporary authority upon a finding that the public interest would be served thereby, for a period not to exceed ninety (90) days, and may extend such authority, upon a like finding, for one additional period, not to exceed ninety (90) days.

(b) Requests for special temporary authority may be submitted informally, by letter, and shall contain the following:

(1) Name and address of the applicant cable system.

(2) Community in which the community unit is located.

(3) Type of operation to be conducted.

(4) Date of commencement of proposed operations.

(5) Duration of time for which temporary authority is required.

(6) All pertinent facts and considerations relied on to demonstrate the need for special temporary authority and to support a determination that a grant of such authority would serve the public interest.

(7) A certificate of service on all interested parties.

(c) A request for special temporary authority shall be filed at least ten (10) days prior to the date of commencement of the proposed operations, or shall be accompanied by a statement of reasons for the delay in submitting such request.

(d) A grant of special temporary authority may be rescinded by the Commission at any time upon a finding of facts which warrant such action.
[39 FR 35166, Sept. 30, 1974; 42 FR 19346, Apr. 13, 1977, as amended at 43 FR 49008, Oct. 20, 1978]

Subpart C—Federal-State/Local Regulatory Relationships

§76.30 Scope of application.

The provisions of this subpart shall not apply to any system community unit that constitutes all or part of a cable television system that serves fewer than 1,000 subscribers. (Secs. 2, 3, 4, 5, 301, 303, 307, 308, 309, 315, 317, 48 stat. as amended, 1064, 1065, 1066, 1068, 1081, 1082, 1083, 1084, 1085, 1088, 1089; [47 U.S.C. 152, 153, 154, 155, 301, 303, 307, 308, 309, 315, 317])
[42 FR 19346, Apr. 13, 1977, as amended at 43 FR 20235, May 11, 1978]

§76.31 Franchise standards.

Franchise fees shall be no more than 3 percent of the franchisee's gross revenues per year from all cable services in the community (including all forms of consideration, such as initial lump sum payments). If the franchise fee is in the range of 3 to 5 percent of such revenues, the fee shall be approved by the Commission if reasonable upon showings: (a) By the franchisee, that will not interfere with the effectuation of federal regulatory goals in the field of cable television, and (b) By the franchising authority, that it is appropriate in light of the planned local regulatory program. With respect to a system community unit that was franchised or in operation prior to March 31, 1972, the provisions of this paragraph shall not be effective until the end of the system's current franchise period, or until 15 years from the date of initial grant of the franchise, whichever occurs first.

NOTE: The following procedures and provisions are recommended for adoption as part of the local franchising process, but are not mandatory:

(1) The franchisee's legal, character, financial, technical, and other qualifications and the adequacy and feasibility of its construction arrangements should be approved by the franchising authority as part of a full public proceeding affording due process;

(2) The initial franchise period should not exceed fifteen (15) years; any renewal period should be of reasonable duration, not to exceed fifteen (15) years, such renewal to be granted after a public proceeding affording due process;

(3) The franchise should specify that the franchisee shall accomplish significant construction within one (1) year after receiving Commission certification, and shall thereafter reasonably make cable service available to a substantial percentage of its franchise area each year (such percentage to be determined by the franchising authority);

(4) Where a franchise contains a policy of construction requiring less than complete wiring of the franchise area, such policy should be adopted only after a full public proceeding, which includes specific notice of the consideration of such a policy;

(5) The franchise should: (i) specify that procedures have been adopted by the franchisee and franchisor for the investigation and resolution of all complaints regarding cable television operations; (ii) require that the franchisee maintain a local business office or agent for these purposes; (iii) designate, by title, the office or official of the franchising authority that has primary responsibility for the continuing administration of the franchise and implementation of complaint procedures; and (iv) specify that notice of the procedures for reporting and resolving complaints will be given to each subscriber at the time of initial subscription to the cable system.

[37 FR 3278, Feb. 12, 1972, as amended at 37 FR 13866, July 14, 1972]

§76.54 Significantly viewed signals; method to be followed for special showings.

(a) Signals that are significantly viewed in a county (and thus are deemed to be significantly viewed within all communities within the county) are those that are listed in Appendix A of the memorandum opinion and order on Reconsideration of the Cable Television Report and Order. (Docket 18397 et al.), FCC 72-530.

(b) Significant viewing in a cable television community for signals not shown as significantly viewed under paragraphs (a) or (d) of this section may be demonstrated by an independent professional audience survey of non-cable television homes that covers at least two weekly periods separated by at least thirty (30) days but no more than one of which shall be a week between the months of April and September. If two surveys are taken, they shall include samples sufficient to assure that the combined surveys result in an average figure of at least one standard error above the required viewing level. If surveys are taken for more than 2 weekly periods in any 12 months, all such surveys must result in an average figure at least one standard error above the required viewing level. If a cable television system serves more than one community, a single survey may be taken, provided that the sample includes non-cable television homes from each community that are proportional to the population.

(c) Notice of a survey to be made pursuant to paragraph (b) of this seciton shall be served on all licensees or permittees of television broadcast stations within whose predicted Grade B contour the cable community or communities are located in whole or in part, and on all other system community units, franchisees, and franchise applicants in the cable community or communities at least thirty (30) days prior to the initial survey period. Such notice shall include the name of the survey organization and a description of the procedures to be used. Objections to survey organization or procedures shall be served on the party sponsoring the survey within twenty (20) days after receipt of such notice.

(d) Signals of television broadcast stations not encompassed by the surveys (for the periods May 1970, November 1970 and February/March 1971) used in establishing Appendix B of the *Memorandum Opinion and Order on Reconsideration of Cable Television Report and Order*, FCC 72-530, 36 FCC 2d 326 (1972), may be demonstrated as significantly viewed on a county-wide basis by independent professional audience surveys which cover three separate, consecutive four-week periods and are otherwise comparable to the surveys used in compiling the above-referenced Appendix B; *Provided, however*, That such demonstration shall be based upon audience survey data for the first three years of the subject station's broadcast operations. (37 FR 3278, Feb. 12, 1972, as amended at 37 FR 13866, July 14, 1972; 40 FR 48930, Oct. 20, 1975; 41 FR 32429, Aug. 3, 1976; 42 FR 19346, Apr. 13, 1977)

§76.55 Manner of carriage.

(a) Where a television broadcast signal is required to be carried by a community unit, pursuant to the rules in this subpart:

(1) The signal shall be carried without material degradation in quality (within the limitations imposed by the technical state of the art), and, where applicable, in accordance with the technical standards of Subpart K of this part;

(2) The signal shall, on request of the station licensee or permittee, be carried on the community unit on the channel number on which the station is transmitting, except where technically infeasible;

(3) The signal shall, on request of the station licensee or permittee, be carried on the community unit on no more than one channel, *Provided, however*, That this provision shall not apply to a signal protected pursuant to §76.92 and §76.94, during periods when network program nonduplication protection is provided.

(b) Where a television broadcast signal is carried by a community unit, pursuant to the rules in this subpart, the programs broadcast shall be carried in full, without deletion or alteration of any portion except as required by this part.

(c) A community unit need not carry the signal of any television translator station if (1) the community unit is carrying the signal of the originating station, or (2) the community of the community unit is located, in whole or in part, within the Grade B contour of a station carried on the community unit whose programming is substantially duplicated by the translator station.

(d) If the community of a community unit is located, in whole or in part, within the Grade B contour of both a satellite and its parent television station, and if the community unit would otherwise be required to carry both of them pursuant to the rules in this subpart, the community unit need carry

PROGRAMMING SERVICES DIRECTORY

System operators and industry followers are continually tracking the launch and re-launch of programming services. Provided on the following pages are profiles of the active basic, pay, audio, regional and non-satellite-fed programming services as of May 1, 1983, unless otherwise indicated. All services are listed alphabetically and include names, phone numbers, satellite transponders, start up dates, affiliates, price per subscriber, number of total subscribers and description of programming offered.
